Big Schools'
Birdwatch

The RSPB is the country's largest nature conservation charity, inspiring everyone to give nature a home.

We had a wonderful science week!

On Monday we had a special assembly to launch science week. We did lots of lovely science learning about birds in our classrooms.

On Tuesday Reception did their Big Schools' Birdwatch. It was great to use the binoculars and bird books that were bought by the PTA. The science ambassadors from the Junior School and Mr Fox came to help us with our science learning. Each class were very lucky to have two science experts from the Junior School to help them.

On Wednesday it was Year 1's turn for the Big School's Birdwatch. When they had finished they had some hot chocolate to help them warm up!

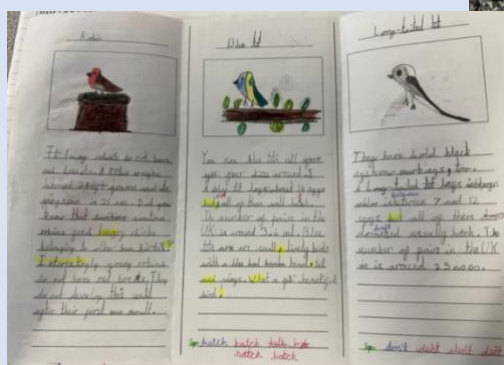

On Thursday Year 2 made some bird feeders and took them into the woods.

On Friday it was Year 2's turn to do their Big Birdwatch.

It was a very exciting day because some birds of prey came to visit the whole school.

Birds of Prey Visit
