

Good examples of Science Areas that link to our Science Vision.

Books so that children can find out for themselves.

Telford Infant School
LOVING LEARNING
Vision for Science

At Telford Infant School we ensure that:

1. Children's curiosity is promoted by encouraging them ask lots of questions
2. Every science lesson is exciting, fun and practical
3. Children have the opportunity to use enquiry skills, such as prediction and observing, in every science lesson
4. Every classroom has a science investigation area where children can practise their enquiry skills and investigate their own questions
5. We respond to exciting scientific events that are happening in our world as they happen

Hands on, practical things for children to do.

Pictures/objects/living things to encourage curiosity and questioning.

Magnifying glasses to encourage children to observe.
