English as an Additional Language (EAL) Policy

Manager:	EAL Co-Ordinator
Date of latest update:	January 2025
Date of next review:	January 2027

This Policy is available for Staff and Governors on One Drive. It is also available for parents on the school website and on request from the school office.

This policy reflects the school values and philosophy to the teaching of children who may have English as an additional language. It sets out the framework within which our teaching and non teaching staff can operate and gives guidance on planning, teaching and assessment. This document is intended for all staff, school governors, and parents and interested others.

Introduction

Telford Infant School and EAL

At Telford Infant School we passionately believe that every child should enjoy their learning journey and develop a love for learning that will last a life time. We put the wellbeing of the children at the heart of our curriculum and through nurture and guidance we ensure that all children begin their school life curious and engaged in the world around them and leave us as confident and resilient learners.

A number of our children have particular learning and assessment requirements, which are linked to their progress in learning English as an Additional Language (EAL).

Children who are learning English as an additional language have skills and knowledge about language similar to monolingual English speaking children and we understand that their ability to participate in the full curriculum may be in advance of their communicative skills in English. We believe a child's first language is the foundation to be built upon and acts as a core to all future learning and as such, bilingualism and multilingualism are recognised as a positive part of their development. We encourage families to speak in the child's first language at home to develop their language skills. We will also encourage opportunities for children to use their home language at school to support their learning and development.

At Telford Infant school we understand that new arrivals into the country as additional language learners are not a homogeneous group. Some new arrivals, for example, may be new to English, some may have achieved social but not academic fluency and some may be advanced bilingual learners. In addition, a complex interplay of factors such as language development in English and the first language(s), the pupil's experience of working in more than one language, their culture, ethnicity, previous educational history and socio-economic status will all form part of their experience.

Aims

The aim of this policy is to help ensure that we meet the full range of needs of these children who are learning English as an additional language. This policy is in line with the requirements of the Race relations (Amendment) Act 2000-RR (A) which requires all schools to promote equality of opportunity.

The National Curriculum entitles all children the opportunity to develop the knowledge, understanding, skills and attitudes that are necessary for their self-fulfillment and development as responsible citizens. We promote the principles of equal opportunities for all, through the education that we provide in our school.

It is the aim of our school that every child with EAL is enabled to:

- Access all areas of the curriculum
- Have pride in their achievements
- Work with a growing confidence
- Continue to use their first language with pride and confidence and as a tool for learning English
- Express themselves confidently in a range of situations on a variety of subjects to differing audiences.
- Express themselves competently in both written and spoken English.

- Benefit from the support of adults within the classroom and in small groups when and if they need it.
- Have access to a range of appropriate resources, which aid their learning.
- See themselves, their language, their culture and identity reflected not only in the classroom but in the wider school and through an inclusive curriculum.

Our school will endeavor to provide the parents of children with English as an additional language with any support they may need throughout their child's school career and afford them the same accessibility to information regarding their child's progress as all other parents.

Roles and Responsibilities

It is the role of the EAL co-ordinator to facilitate the implementation of this policy:

- To meet with parents/carers and child to complete the 'parental interview pupil information sheet' and 'my language profile', prior to a new arrival starting school.
- To follow the Local Authority International New Arrivals Admission and Induction Guidance provided by ETMAS.
- Contacting the child's previous school, if applicable.
- Contacting EMTAS for support and advice if necessary.
- Supporting colleagues to plan and assess, if necessary, and ensuring the delivery of the curriculum is at an appropriate level for the child.
- Supporting staff in their professional development of EAL
- Maintaining high expectations
- Keeping an up to date with current teaching methods and EAL issues.
- Supporting parents
- Arranging for translations if necessary
- Offering access to appropriate learning material in a variety of languages.
- Being sensitive and empathetic to children's differing experiences.
- Ensure that there are clear criteria for any intervention, which may involve withdrawing new arrivals from the classroom for short periods of time during the school day.
- Ensure that parents of new arrivals are invited to a review meeting after 4-6 weeks to discuss the pupil's integration, academic progress, language development and targets.
- Ensure that when the initial assessment takes place, there is an equal focus on speaking, listening, reading and writing.

Assessment

The EALCO will provide support for teachers to complete an initial assessment for international new arrivals. The teaching staff will complete an EAL Proficiency Assessment Scale for their EAL children in four areas. For KS1 the areas are: Listening and Understanding (Receptive language), Speaking (Expressive language), Reading and Writing. For children in reception the areas are: Listening and Understanding (Receptive language), Speaking (Expressive language), Personal Independence, Social and Emotional Skills Development and Literacy.

Where appropriate the EALCo should have regular meetings with class teachers and any other persons working with the child to discuss their learning and review their development in order to assess progress.

Definitions of Terms

EAL: English as an additional language. This recognises that many pupils learning English already understand at least one other language and are adding English to their repertoire. It also applies to children who hear another language spoken at home by parents, careers or other relatives. EALCo: English as an Additional Language Co-Ordinator

Bilingual, multilingual or Plurilingual: All of these terms refer to children who have access to more than one language at home or at school. The terms do not imply that the child is fully fluent in both or all languages.

Early stage learners: pupils who are at the early stages of learning English. This is often used interchangeably with "new arrivals".

International New Arrivals (INAs): This refers to children who have come from overseas. They may be fluent speakers of English, not speak English at all or have a developing level of English. Advanced learners of EAL: pupils who have had considerable exposure to English and are no longer in the early stages of acquiring the language. These pupils may need supporting developing the cognitive use of language.

	Responds appropriately to different sentence types, e.g. questions, negatives and statements	

Attends actively to conversations on familiar topics when speech is delivered at pace of a	
native speaker	
Listens for and identifies relevant key information from discussions, explanations and teacher presentations.	
Follows a set of oral instructions or directions related to a game or learning activity (following a route with a map).	
Fully competent in Basic Interpersonal Communication Skills (BICS) – see Cummins Theory (1980)	
SE: Compositions 1	Date/Init
S5: Competent 1 - Needs some/occasional EAL support to access more complex curriculum material and tasks (DfE)	al
Shows a growing understanding of a range of language structures linked to academic learning e.g. abstract / low frequency vocabulary, modal verbs, conditional tenses, passive forms	
Begins to distinguish between different types of spoken language e.g. genres, formal/informal registers	
Asks for clarification when necessary and may still need extra time for more complex listening tasks including group work.	
Begins to understand some common idiomatic expressions (e.g. <i>piece of cake)</i> after exposure to meaning in shared fictional texts.	
Follows the gist and some detail of teacher talk on a <i>new</i> topic at normal speed with minimal visual/contextual support.	
Participates confidently in shared oral activities e.g. poems, songs, shared texts	
Has a growing bank of subject specific words related to curriculum topics	
Can understand an unfamiliar speaker on a familiar topic.	
S6: Competent 2	Date/Init
Understands range of idiomatic language e.g. <i>raining cats and dogs, pull your socks up</i> and colloquialisms (e.g. <i>skint)</i>	
Understands a range of common phrasal verbs and their formal equivalents e.g. <i>put up with [tolerate], give in [surrender]</i>	
Understands inference and humorous references if not too culturally loaded	
Shows understanding of the detail of curriculum topics, with minimal visual/ contextual support, by answering a variety of questions (literal and inferential)	
Follows spoken language confidently in all school activities (e.g. assemblies, group tasks) but occasionally some vocabulary and grammatical gaps may still be apparent	
Responds to different registers appropriately e.g. matching formal response to formal request	
S7: Fluent Operates without EAL support across the curriculum	Date/Init al
Understands English at an age appropriate level commensurate with a monolingual English speaking peer.
