

Telford Infant School

Pupil Premium Report - 2021-22

BACKGROUND

The purpose of this plan is:

- To ensure that the Pupil Premium grant is spent to maximum effect.
- To ensure that the school accelerates the progress and raises the attainment of children eligible for the Pupil Premium grant so that they are in a position to achieve at least Age Related Expectations across the whole curriculum, but in particular in English and Mathematics.
- To enable the school to close the gap in attainment between children who are eligible for the grant and those who are not eligible.

This year's strategy has been developed by analysing last year's Pupil Premium expenditure alongside the impact it had on the children academically, looking at their progress and attainment whilst at the same time taking into account their emotional health and wellbeing and self confidence.

NUMBER OF PUPILS ELIGIBLE FOR PUPIL PREMIUM GRANT AND AMOUNT OF GRANT FINANCIAL YEAR 2021-22

Total number of pupils on roll	253
Total number of pupils eligible for PPG	11 children eligible – census October 2020: 9 FSM 2 Service 0 LAC/Post LAC 3.56% Free School Meals 4.35% Total Pupil Premium
Amount of PPG received per pupil	9 FSM = £12,105 2 Services = £620 Total = £12,725

BARRIERS TO FUTURE ATTAINMENT FOR PUPILS ELIGIBLE FOR PUPIL PREMIUM

Note - not all barriers apply to all children eligible for the grant.

A	Current attainment	A number of eligible children need to make accelerated progress in order to catch up and meet Age Related Expectations.
B	Self confidence	A number of children eligible for the PP grant have low self esteem and require individualised, targeted support.
C	On entry difficulties	Some of our children enter school with difficulties that need to be addressed in order to maintain good progress. A number of children eligible for the grant did not join at the start of Reception and needed support settling in. They also benefit from further support in the transition to a new year group.
D	Attendance	The attendance rate and punctuality of a small number of PP children has a detrimental impact on overall attainment and progress.
E	Children's Services/Early Help	A significant number of children (but not all) eligible for the PP grant have Children's Services or Early Help involvement. This can indicate difficult home circumstances, resulting in emotional barriers to learning.
F	Access to Enrichment Activities	Some children do not have opportunities to access the same enrichment activities out of school as their peers. Through discussion with specific families additional support has been set up to ensure equality of extra curricular provision between pupil groups.

DESIRED OUTCOMES AND KEY ACTIONS

End of year review

	Development Area	Desired Outcomes	Success Criteria	Review – July 2022
A	Current attainment	Progress and attainment of eligible children is increased which reduces the gap between these children and their peers – across the whole curriculum but with a particular focus on Reading, Writing and Mathematics.	Due to early identification, high quality provision and rigorous tracking children eligible for the PP grant achieve at least as well as children not eligible for the grant.	End of year data shows that children eligible for the Pupil Premium grant are making strong progress overall in Reading, Writing and Maths –

		The number of eligible children working at greater depth increases.	The % of children eligible for the grant at least matches those not eligible.	although not all reach age related expectations. There is still a marked gap between children eligible and those not eligible working at Greater Depth. (Continue in 2022-23)
B	Self confidence Self esteem	Eligible pupils feel as included, valued and involved as all other children in school. They Eligible pupils have accessed specialist, targeted support to help develop self confidence and self esteem.	Eligible pupils demonstrate more resilient behaviours in a wide range of situations. Eligible pupils feel valued and have a sense of equality as: They have the same school uniform as other children. They attend all learning visits On an individual needs basis eligible pupils are exposed to one of the following areas of provision which results in increased self confidence and self esteem: Nurture Group Drawing and Talking Therapy sessions School Counselling	A number of children eligible for the grant have benefitted from additional support. Pupil Voice indicates that self confidence is increasing. Boxhall profiles have been used to evidence progress in this area. However, further support needs to be offered and cannot be withdrawn in 2022-23. The introduction of Thrive will be a key approach. (Continue in 2022-23)
C	On entry difficulties	Pupils are provided with additional support when transferring from other schools and settle swiftly so that they are ready to learn as quickly as possible.	Children who are eligible for the grant who join Telford Infants any time after the start of Reception have bespoke support put in place and make at least strong progress within the first term.	This was planned for but was not applicable this academic year.
D	Attendance	The attendance and punctuality of eligible children are improved through increased monitoring and engagement with families.	Each eligible child has at least 97.5% attendance. Each eligible child attends school on time, at least in line with non eligible children.	Attendance Rates dipped across the school in 2021-22, partly due to COVID self isolation regulations at the start of the academic year and extremely high rates of positive cases of COVID-19 in the Spring term. Some improvement in punctuality of small number of children eligible for the grant who have previously caused

				concern but further work to be done to develop this further. (Continue in 2022-23)
E	Children's Services/Early Help	Children receiving support from Children's Services and Early Help have access to the support they need. Early Help support is opened for eligible pupils who require it.	Children and their families receive the bespoke support they need. Children feel safe and are ready to learn.	Bespoke support provided in consultation with Children's Services. (Continue in 2022-23)
F	Access to Enrichment Activities	Extended school opportunities are provided for eligible pupils with a particular focus on wellbeing, health and promoting learning at home. Children benefit from participation and the new skills they learn.	Eligible pupils attend events and clubs; they go on visits and trips and have access to quality resources at home etc that they would not otherwise access. They use these experiences to raise confidence and develop learning across the curriculum.	In previous years Pupil Voice and discussions with parents have indicated that enrichment activities had a positive impact on raising confidence and attitudes to learning. These were provided on a needs basis and this year mainly comprised of an offer of Breakfast Club. (Develop in 2022-23)

PROPOSED EXPENDITURE – 2022-2023

The three headings below enable the school to demonstrate how we are using the Pupil Premium to improve classroom pedagogy, provide targeted support and support whole school strategies.

Implementation of strategies and value for money of PP spend is reviewed:

At Full Governing Board Meetings – termly

At Pupil Premium Reviews – termly

At Pupil Progress Meetings – 5 times a year

At Finance Meetings – termly

On an ongoing basis

C Pupils are provided with additional support when transferring from other schools and settle swiftly so that they are ready to learn as quickly as possible.	Children are provided with additional support whilst they settle into school overseen by our HLTA. The support will be dependent on children's individual needs but may include additional interventions, friendship support etc.	In the past some children have taken time to settle into new school routines and have benefitted from some short term targeted support. Other approaches

Desired Outcome	Actions/Approach	What is the evidence and rationale for this choice?	How will you ensure it is implemented successfully?	Staff Lead	Estimated cost
E Children receiving support from Children's Services and Early Help have access to the support they need. Early Help support is opened for eligible pupils who require it.	This will be wholly dependent on children's individual needs.	A number of children eligible for the grant are receiving support through Early Help or Children's Services. In the past we have found that unexpected needs arise for these children which can be a barrier to them making progress.	Impact of any expenditure will be discussed at fortnightly DSL meetings.	Headteacher Deputy Designated Safeguarding Leads	Unknown

Note: If a strategy is not having the desired impact after an appropriate amount of time then it will be stopped and alternative provision will be put in place. For this reason all costs are approximate and not all of the grant is accounted for in the plan to allow some level of flexibility.
